

VICTORIA CURLING ERIKSSON
ARTIST

VICTORIA CURLING-ERIKSSON

Born: Bath, England, 1970

Victoria grew up and went to school in Bath, a city that she still visits often and loves dearly. After completing a degree in Biotechnology BSc (Hons), Victoria started working with international Clinical Trials, which allowed her to travel extensively. It was after her move to Sweden that Victoria decided to change her career totally and attended a Swedish Art school for 2 years.

Following her time at Art College she studied to become a qualified certified life coach, which has given her enormous inspiration for her artwork.

Victoria works full-time as a professional artist

Victoria's artwork is greatly inspired by the Southern Swedish landscape. Every day she walks her dogs and is constantly inspired by the different landscapes, lights and seasonal changes.

Victoria aims to instill a feeling of stillness and atmosphere in her artwork. Never knowing how the final image will look like until it gradually appears.
